ONLINE COVER Real-time processing and manipulation of biological signals requires bioelectronic devices with integrated components capable of signal amplification, processing, and stimulation; Transistors form the backbone of such circuits. As represented on the March cover, Spyropoulos et al. have introduced an internal-ion gated organic electrochemical transistor (IGT) that uses contained ...

ImageNet: A Large-Scale Hierarchical Image Database

Abstract. Contemporary, layer-wise additive manufacturing approaches afford sluggish object fabrication rates and often yield parts with ridged surfaces; in contrast, continuous stereolithographic printing overcomes the layer-wise operation of conventional devices, greatly increasing achievable print speeds and generating objects with smooth surfaces.

Rapid, continuous additive manufacturing by volumetric

International Journal of Advanced Research (IJAR) is an open access, peer-reviewed, International Journal, that provides rapid publication (monthly) of research articles, review articles and short communications in all subjects. IJAR has got Impact factor of 6.118 and highest Index Copernicus value of 56.43.

International Journal of Advanced Research

search areas, from nanotechnology to astronomy. It is common practice for manufacturers of image acquisition devices to include dedicated image processing software, but

Image Processing with ImageJ

Aims and Scope: The "Advances in Computational Design (ACD), An international Journal," aims at providing an excellent publication channel for researchers and practicing engineers in computational design in all the areas of engineering & science. The journal focuses on but not limited to the following areas : Computer-Aided Design in Engineering, Computer Graphics and Modeling ...

where R_{ij} is a local neighbourhood around location (i, j) . The typical pooling operations are average pooling and max pooling. Fig. 2(b) shows the feature maps of digit 7 learned by the first two convolutional layers. The kernels in the 1st convolutional layer are designed to detect low-level features such as edges and curves, while the kernels in higher layers are learned to encode more ...

Recent advances in convolutional neural networks

Aims and Scope: The Journal of Advances in Nano Research is an international and interdisciplinary peer reviewed journal. The journal aims to integrate high quality contributions from scientists and engineers alike into a single source of information that serves broad scientific audience.

Large Scale Visual Recognition Challenge (ILSVRC) - ImageNet

Cloud computing makes computer system resources, especially storage and computing power, available on demand without direct active management by the user. The term is generally used to describe data centers available to many users over the Internet. Large clouds, predominant today, often have functions distributed over multiple locations from central servers.
