Self-affirmation processes are being activated by information that threatens the perceived adequacy or integrity of the self and as running their course until this perception is restored through explanation, rationalization, and/or action.

The Psychology of Self-Affirmation: Sustaining the

Etymology and definitions. The word psychology derives from Greek roots meaning study of the psyche, or soul (ψυχή - psychē, "breath, spirit, soul" and λόγος -logia, "study of" or "research"). The Latin word psychologia was first used by the Croatian humanist and Latinist Marko Marulić in his book, Psychologia de ratione animae humanae in the late 15th century or early 16th century.

Color is a ubiquitous perceptual stimulus that is often considered in terms of aesthetics. Here we review theoretical and empirical work that looks beyond color aesthetics to the link between color and psychological functioning in humans. We begin by setting a historical context for research in this area, particularly highlighting methodological issues that hampered earlier empirical work.

Color Psychology: Effects of Perceiving Color on

Experimental psychology emerged as a modern academic discipline in the 19th century when Wilhelm Wundt introduced a mathematical and experimental approach to the field. Wundt founded the first psychology laboratory in Leipzig, Germany. Other experimental psychologists, including Hermann Ebbinghaus and Edward Titchener, included introspection among their experimental methods.

What psychological mechanisms facilitate social coordination and cooperation? The present research examined the hypothesis that social cues that signal an invitation to work with others can fuel intrinsic motivation even when people work alone.

Cues of working together fuel intrinsic motivation

INTRODUCTION. One of the most discussed phenomena in the aftermath of the 2016 U.S. presidential election was the spread and possible influence of “fake news”—false or misleading content intentionally dressed up to look like news articles, often for the purpose of generating ad revenue.

Less than you think: Prevalence and predictors of fake

The mission of the Department of Psychology at the University of Kansas is to further the understanding of the mind, the brain, and human behavior through the classes we teach, the new discoveries we make in our research, and in our service to the people of Kansas and the world.
