Will the Housing Bubble Burst in 2018? - PWSC

The bursting of the US housing bubble will change expected returns to housing assets and will lead to a reallocation of capital within the United States as well as between countries. This reallocation of capital will have knock-on effects for the world economy, exchange rates and international capital flows.

Issue 14 Bursting of the US housing bubble

Moreover, those who create the bubbles or issue the debt receive rents that can be interpreted as a fee for providing this service.⁵ A crucial and novel aspect of the model presented here is that it provides a formal description of how bubbles and debt interact with each other as they compete for a fixed pool of savings.
