SPRING 2013 - Building a better working world

Scientific opinion on climate change is a judgment of scientists regarding the degree to which global warming is occurring, its likely causes, and its probable consequences.. A related "but not identical" term, "scientific consensus on climate change," is the prevailing view on climate change within the scientific community. The consensus is that: Earth's climate has warmed significantly ...

Scientific opinion on climate change - Wikipedia

That humans are causing global warming is the position of the Academies of Science from 19 countries plus many scientific organizations that study climate science. More specifically, around 95% of active climate researchers actively publishing climate papers endorse the consensus position.
