Latest news and information from the World Bank and its development work on Climate Change. Access facts, statistics, project information, development research from experts and latest news about Climate Change.

### **Climate Change Home - worldbank.org**

Climate change is a change in the statistical distribution of weather patterns when that change lasts for an extended period of time (i.e., decades to millions of years). Climate change may refer to a change in average weather conditions, or in the time variation of weather within the context of longer-term average conditions, defined by the World Meteorological Organization as a 30 years or ...

An overview from the Royal Society and the US National Academy of Sciences Climate Change Evidence & Causes

### **Climate Change Evidence & Causes - dels.nas.edu**

One source of abrupt climate change effects is a feedback process, in which a warming event causes a change which leads to further warming. This can also apply to cooling. Example of such feedback processes are: Ice-albedo feedback, where the advance or retreat of ice cover alters the 'whiteness' of the earth, and its ability to absorb the sun's energy.

### **Abrupt climate change - Wikipedia**

The Earth's climate has changed throughout history. Just in the last 650,000 years there have been seven cycles of glacial advance and retreat, with the abrupt end of the last ice age about 7,000 years ago marking the beginning of the modern climate era and of human civilization.

### **Evidence | Facts – Climate Change: Vital Signs of the Planet**

The Nongovernmental International Panel on Climate Change (NIPCC) is what its name suggests: an international panel of nongovernment scientists and scholars who have come together to understand the causes and consequences of climate change.

### **Climate Change Reconsidered**

v Foreword Tackling climate change is central to achieving a sustainable future for the world's growing population and food security must lie at the heart of these efforts.
