Objective Clinical Chemistry and Laboratory Medicine (CCLM) publishes articles on novel teaching and training methods applicable to laboratory medicine. CCLM welcomes contributions on the progress in fundamental and applied research and cutting-edge clinical laboratory medicine. It is one of the leading journals in the field, with an impact factor over 3.

Clinical Chemistry and Laboratory Medicine (CCLM)

International Journal of Immunology (IJI) is serving the needs of the immunology community worldwide with objective enthusiasm. It plays an essential role in monitoring advances in the various fields of immunology, bringing together the results in a readable and lucid form. Together with the other sections of the journal they give the reader a complete picture of the diverse field of immunology.

International Journal of Immunology :: Science Publishing

Abstract. Each of us is a story. Mine is a story of doing science for 60 years, and I am honored to be asked to tell it. Even though this autobiography was written for the Annual Review of Immunology, I have chosen to describe my whole career in science because the ...

American Journal of Clinical and Experimental Medicine (AJCEM) provides a forum for the publication of scientific research and review articles. The journal publishes original full-length research papers in all areas related to experimental and preclinical studies, translational research, prospectively designed clinical trials, and epidemiological studies.

American Journal of Clinical and Experimental Medicine

Clinical neurophysiology is a medical specialty that studies the central and peripheral nervous systems through the recording of bioelectrical activity, whether spontaneous or stimulated. It encompasses both research regarding the pathophysiology along with clinical methods used to diagnose diseases involving both central and peripheral nervous systems.

Clinical neurophysiology - Wikipedia

Major Learning Outcomes Immunology & Medical Microbiology. Goal 1: The Bachelor of Science in Immunology and Medical Microbiology program is designed to provide students with a thorough understanding of the basis of the mammalian immune system and how it functions to protect the body from infectious agents in conjunction with an in-depth knowledge and understanding of pathogens.
