Fifth International Symposium in Computational Economics and Finance in Paris, April 12-14, 2018.

Fifth International Symposium in Computational Economics

The ASA publishes or co-publishes 17 journals focusing on statistics in business and economics, biopharmaceutical research, agriculture, biology, the environment, sports, surveys, and so much more.

Publications - American Statistical Association (ASA)

Why Philosophers Should Care About Computational Complexity Scott Aaronson Abstract One might think that, once we know something is computable, how efficiently it can be com-

Why Philosophers Should Care About Computational Complexity

Computational science and engineering (CSE) is a relatively new discipline that deals with the development and application of computational models and simulations, often coupled with high-performance computing, to solve complex physical problems arising in engineering analysis and design (computational engineering) as well as natural phenomena (computational science).

Computational science - Wikipedia

Computational fluid dynamics (CFD) is a branch of fluid mechanics that uses numerical analysis and data structures to analyze and solve problems that involve fluid flows. Computers are used to perform the calculations required to simulate the free-stream flow of the fluid, and the interaction of the fluid (liquids and gases) with surfaces defined by boundary conditions.

Computational fluid dynamics - Wikipedia

JCTN publishes peer-reviewed research papers in all fundamental and applied research aspects of computational and theoretical nanoscience and nanotechnology and general mathematical procedures dealing with chemistry, physics, materials science, engineering, and biology/medicine.

Journal of Computational and Theoretical Nanoscience

The Economic Research Department conducts research on monetary policy, macroeconomics, banking, financial markets, applied microeconomics, and the regional economy in support of the Federal Reserve Bank's policy and public outreach functions.
