Introduction. The gray wolf (*Canis lupus*), a native species that was nearly extirpated early last century, is returning to Washington on its own, dispersing from populations in other states and provinces. The Washington Department of Fish and Wildlife (WDFW) is working to manage this recovering endangered species, guided by a citizen-developed plan to address conflicts with livestock and ...

Conservation grazing is the use of semi-feral or domesticated grazing livestock to maintain and increase the biodiversity of natural or semi-natural grasslands, heathlands, wood pasture, wetlands and many other habitats. Conservation grazing is generally less intensive than practices such as prescribed burning, but still needs to be managed to ensure that overgrazing does not occur.

In 1979, the Portland City Council founded a nonprofit corporation called Portland Energy Conservation, Inc. to carry out the country's first energy conservation policy.. Over 35 years (and one name change, to the shorter, sweeter PECEI), we have evolved and grown as necessary to help communities across the country identify ways to meet the future and promote growth and independence.
