Once it is emptied that disk space will be recovered. Once the file has been deleted When a computer deletes a file or the Recycle Bin is emptied, it is removing the reference to the file on the hard drive .

When I delete a file on my computer, where does it go?

Recycling Facility Collection trucks bring recyclables to a WM Recycle America facility. The recyclables are unloaded onto an area called the "tipping floor." Notice that this is a "single-stream" facility. That makes recycling easier for everyone in the community, since recyclables don't need to be separated for collection.

What does Waste Management do with trash, anyway?

In the above mentioned scenario, deleted files did not get moved to Recycle Bin because files are erased using Shift and Delete key combination from the keyboard. When a file is shift-deleted, it bypasses Recycle Bin and gets completely removed from system hard drive. Thus, your files were not found in Recycle Bin.
