### **Regionalism in Africa: Genealogies, Institutions and Trans**

in Africa. It draws together the many different dimensions of regionalism, from the power of colonial legacies and the ambiguous implications of dense cross-border transactions to the importance of club diplomacy and regime survival. It is the most important study of regionalism in Africa to have appeared in past decade.

Daniel Bach's book titled "Regionalism in Africa: Genealogies, institutions and trans-state networks" is a tour de force on the subject of regional integration in Africa. It provides a comprehensive theoretical analysis of the historical processes of integration that have been underway in Africa in both the colonial era and the post-independence period.

identification of distinctive "threads" of regionalism that, by focusing on genealogies, trajectories and ideals, transcend the binary divide between old and new regionalisms. In doing so, the book opens new perspectives not only on Africa in international relations, but also Africa's own international relations.
