changing dispositions. It transcends both the philosophical concept of an advantageous shi and of an authoritative shi. These philosophical concepts of shi (i.e., the advantageous shi, the authoritative (or ritual shi) shi, and the self-so-doing shi) is explored in detail because they provide interesting insights into the various fields in architecture.

concept of sustainability itself and its ethical roots. The objective of this work is to rethink the current concept of sustainability by providing it with a sound universalistic ethical rationale. We propose that ethics is the key by which disputes and conflicts among the economic, social, and environmental domains can and ought to be resolved.

### **Rethinking the Concept of the Human Right to Water**

The concept of hegemonic masculinity has influenced gender studies across many academic fields but has also attracted serious criticism. The authors trace the origin of the concept in a convergence of ideas in the early 1980s and map the ways it was applied when research on men and masculinities expanded.
