Chemistry Science Fair Projects 1 - [PDF Document]

The best chemistry science fair project is one that answers a question or solves a problem. It can be challenging to come up with a project idea, but looking at a list of project ideas other people have done may stimulate a similar idea for you or you can take an idea and think of a new approach to the problem or question.

Chemistry Science Fair Project Ideas - ThoughtCo

A science fair project is simply your independent research of a science topic using the scientific method. All work and ideas are yours, giving you "ownership" of the research

Student Guide: How to Do a Science Fair Project

In this science fair project, you will compare the size and shape of crystals grown in three different temperature conditions: room temperature, in the refrigerator, and in an ice bath. With just water and borax, a household cleaning product, you can discover the best recrystallization method for growing large, pure crystals.
