The Genetics of Sexuality and Aggression (GSA) project was launched at the Abo Akademi University in Turku, Finland in 2005 and has so far undertaken two major population-based data collections ...

### **(PDF) The Genetics of Sexuality and Aggression (GSA) Twin**

First, established sex and gender differences in health and longevity motivate very little research on genetics and health in these journals. Second, sex, when incorporated, is most often treated as a confounding factor, or a source of variation that needs to be controlled, to make room for substantive conclusions about other factors.
