

simulation based engineering in pdf

To define the field of computer simulation more precisely and to assess its potential impact on important areas of engineering science, in April 2004 the NSF organized a workshop on SBES. Encouraged by the widespread interest in the results of the workshop, the Foundation appointed a Blue Ribbon Panel on Simulation-Based Engineering Science.

Revolutionizing Engineering Science through Simulation

Simulation-Based Engineering Science (SBES), in which modern computational methods and devices and collateral technologies can be combined to resolve fundamental issues far outside the scope of traditional scientific and engineering methods.
