Mentorship is a relationship in which a more experienced or more knowledgeable person helps to guide a less experienced or less knowledgeable person. The mentor may be older or younger than the person being mentored, but he or she must have a certain area of expertise. It is a learning and development partnership between someone with vast experience and someone who wants to learn.

3. Power stroke: The air fuel mixture burns from the spark plug outwards within the combustion chamber while the piston is near the top of its travel. The burning fuel raises the temperature, and thus the pressure within the cylinder. The pressure pushes equally on all the surfaces of the combustion chamber, cylinder and piston, but because only the pistons can move, this is where the work is done.
