OECD-FAO Agricultural Outlook 2015-2024

Over the ten-year Outlook period, agricultural markets are projected to remain weak, with growth in China weakening and biofuel policies having less impact on markets than in the past. Future growth in crop production will be attained mostly by increasing yields, and growth in meat and dairy production from both higher animal stocks and improved yields.

The past year was an exciting one for our College. We not only set new records in research awards, in student enrollment/diversity, in philanthropic support, in space and facilities, in online offering and in industry engagement, we also succeeded in establishing three national-scale centers, welcoming the most academically prepared freshman class, and attracting and retaining talent.
