The West African Ebola virus epidemic (2013–2016) was the most widespread outbreak of Ebola virus disease (EVD) in history—causing major loss of life and socioeconomic disruption in the region, mainly in the countries of Guinea, Liberia, and Sierra Leone. The first cases were recorded in Guinea in December 2013; later, the disease spread to neighboring Liberia and Sierra Leone, with minor ...

William Taliaferro Close (June 7, 1924 – January 15, 2009) was an American surgeon who played a major role in stemming a 1976 outbreak of the Ebola virus in Zaire, the first major outbreak of the viral hemorrhagic fever in Central Africa, and preventing its further spread. He was also the father of actress Glenn Close and husband of Bettine Moore Close.
